

Sensory Friendly Routine Vaccine Clinics

March 20, 2023, 3:30 - 6:30 pm
May 15, 2023, 3:30 - 6:30 pm

Building for Kids Children's Museum
100 W College Ave
Appleton, WI

The clinics are designed for children with Autism, ADHD, other developmental disabilities, or anyone else who would benefit from a modified vaccination experience. Routine vaccinations will be offered, in addition to flu and COVID-19 vaccines and boosters.

Prior to the clinic, a social narrative will be available to help prepare participants for the vaccination experience. During the clinic, participants can expect individualized support throughout their appointment, sensory fidgets, distraction strategies, and other individualized accommodations as needed.

After appointments, participants can play in the museum until it closes at 7:00 pm. The Building for Kids will also provide a pizza dinner.

To make an appointment for an upcoming clinic, families should call Mosaic Family Health at (920) [832-2783](tel:9208322783) and request to schedule an appointment at the "Sensory Friendly Vaccine Clinic at the Building for Kids." While not required, please be prepared to share your insurance information if you have it.
